

REMOTE CCTV MONITORING

Surveillance and remote monitoring from MCM Security Group can be utilised as an enhanced security management tool that can be effectively used to improve the security of an organization. Our professionals are highly trained to assess and respond appropriately to any situation.

Our remote monitoring service is highly effective for sites with little out-of-hours activity. It is also useful where the value of maintaining a manned presence is limited.

Our CCTV remote monitoring capability can be utilized to track activities in the are-as such as:

- ✓ Finance and Banking
- ✓ Parking areas
- ✓ Educational Institutions
- ✓ Storage facilities and warehouses
- ✓ Construction sites
- ✓ Petrol stations
- ✓ Commercial buildings
- ✓ Hospitals
- ✓ Marinas
- ✓ Shopping complexes
- ✓ Manufacturing plants
- ✓ Transporting companies

Our services include:

- ✓ CCTV remote monitoring and 24 X 7 X 365
- ✓ Playback of remote video and audio
- ✓ Emergency response
- ✓ Intelligent Monitoring - camera is zoomed in on interesting events that enable authorities to review more meaningful data.

Our reporting package keeps custom-ers aware of possible threats or future threats in order that they can imple-ment proactive remedies before an incident might happen.
